Allow us, the undersigned Irishmen of the city of Vicksburg, to give expression, through your paper, to the indignation with which we regard the false and impertment assertions made by the These newspaper, in regard to Martin Keary and the Irish. Irishmen are white men, proud of their ancestry and manhood, and have ever held in scorn and contempt what is base and euary. GOVERNOR BROWN'S LETTER.

The able, practical, earnest and carefully-prepared letter of Governor John Snuday last, has been most favorably received by the public. The business men of Memphis who called upon Govstnor Brown for his views, and to whom this letter was addressed, express their gratification and satisfaction at the financial condition of the State, as represented by the chief executive. The letter of Governor Brown is instructive, as it explains with admirable clearness. distinctness, and perfect candor, what the people desire to know-the true condition of the Indebtedness of the State-information which the executive alone could furnish. In behalf of the people of Memphis we thank Governor Brown for his timely letter, so ably prepared, and so full and complete in facts which the people should know, as they deeply concern them pecuniarily. Moreover this desire on the part of the people for information is commendable. It shows that they are vigilant, which is essential to an honest and economical administration of the State government, When they are watchful and solicit inruption in office, and it is the hounden duty of an official, a servant of the people, to furnish information when respectfully solicited by his constituents. It is by such letters as Governor Brown has just written that the policy of the State and country is shaped, and their destlay fixed. It is a favorable sign to see the people soliciting information and argument. Let each public mun, whether in office or seeking office, bring to the common store his thoughts, and from them the people can judge as to the safest policy. Andrew Johnson and Colonel John S. Kerr have frequently given their views as to the figancial condition of the State, and have received the commendation of those who favor or concur with them, and we see no resson why Governor Brown should not be allowed the same Notice to Bridge Contractors A.
